

HackFest

2025

EDU HACKFEST 2025 – OFFICIAL RULEBOOK

1. OVERVIEW

EDU HackFest 2025 is an innovation-driven hackathon designed to challenge students to create technology-based solutions to real-world problems. Participants will work in teams to develop functional prototypes including web applications, mobile apps, or other digital solutions that address scenario-based challenges.

Event Format: Hybrid (Pre-Onsite + Onsite Development)

Duration: 7-hour onsite coding phase (plus pre-evaluation)

Eligibility: University students currently enrolled in any program

2. TEAM FORMATION & REGISTRATION

2.1 Team Composition

- Each team must consist of **2-3 members**
- All team members must be currently enrolled university students
- Teams must register with a unique team name

2.2 Registration Rules

- The registration deadline will be announced on official channels
- **Once registered, team members cannot be changed under any circumstances**
- Teams found violating this rule will be disqualified

3. PROBLEM STATEMENT STRUCTURE

The hackathon follows a split problem statement approach to encourage both preparation and real-time problem-solving:

3.1 Pre-Release

- Most of the problem statement will be released **at least 48 hours before** the onsite phase begins
- Teams may analyze, plan, and develop a complete solution from their location
- Teams are encouraged to set up their development environment, research technologies, and create initial prototypes

3.2 Onsite Release

- The remaining part will be revealed **at the start of the onsite phase**
 - This portion will require teams to adapt, integrate, and complete their solution within the 7-hour timeframe
-

4. HACKATHON PHASES

4.1 Pre-Onsite Phase

Timeline: Begins 48+ hours before the onsite phase

Activities:

- Teams receive the first part of the problem statement via official communication channels
- Teams work independently to develop their initial solution
- Research, planning, and partial implementation are permitted
- You **must complete this pre-onsite phase** from home within the allotted time period
- We will share a **google form link** to upload your repository link

4.2 Onsite Phase

Duration: 7 hours

Structure:

1. **Opening Ceremony** – Welcome, final instructions, and release of the remaining problem statement
2. **Development Period** – 7 hours of intensive coding and building
3. **Submission Deadline** – All teams must submit their projects before the deadline (no extensions)
4. **Final Presentations** – Teams present their complete solutions to the judging panel

Venue Facilities:

- Internet access will be provided
- Power outlets available
- Refreshments will be served

Important Notes:

- **You must bring your own laptop, multiplug for power outlets, and backup internet connectivity (mobile hotspot recommended)**
- Teams are responsible for their own devices, chargers, and essential accessories

5. DEVELOPMENT GUIDELINES

5.1 Permitted Resources

- **AI tools (ChatGPT, GitHub Copilot, Google Gemini, etc.) are allowed for assistance**
- **Free AI tools only** – Paid/premium AI subscriptions are strictly prohibited
- Open-source libraries, frameworks, and APIs are permitted
- Online documentation, tutorials, and Stack Overflow are allowed

HackFest

2025

5.2 Prohibited Activities

- Using **paid AI tools or services** (e.g., ChatGPT Plus, Copilot Pro, Claude Pro)
- Copying code from existing projects without proper attribution
- Submitting pre-built projects created before the hackathon
- Receiving external help from non-team members during the onsite phase
- Using another team's code or solution

5.3 Code Originality

- Teams must write their own code. External libraries and frameworks are acceptable, but the core logic must be original
- Proper attribution is required if using significant open-source code snippets
- **Plagiarism will result in immediate disqualification**

6. SUBMISSION REQUIREMENTS

Teams must submit the following before the final presentation:

6.1 Mandatory Deliverables

1. **Source Code** – Complete codebase (GitHub repository link)
2. **README File** – Must include:
 - Project title and description
 - Technologies used
 - Installation/setup instructions
 - Team member names and roles
3. **Presentation Deck** (Optional but recommended) – PPT/PDF/Demo video summarizing the solution
4. **Live Link** (Optional but highly recommended) – A deployed, working project link

6.2 Submission Process

- Submissions will be made through a designated platform (Google Form to be shared)
- **Late submissions will NOT be accepted under any circumstances**
- Ensure all files are accessible and properly labeled

7. EVALUATION & JUDGING

7.1 Judging Panel

- A panel of experienced judges from academia and industry will evaluate all projects
- Judges' decisions are final and binding

7.2 Evaluation Criteria

Criteria	Weight	Description
Core Functionality (A1–A5)	25%	At least two core modules must work flawlessly. Smooth workflows for farmer profiles, crop batch registration, offline mode, weather integration, prediction logic, or pest identification. Deployed link must be stable.
Bangla-First User Experience	10%	Clear and simple Bangla UI. Easy to understand for real Bangladeshi farmers. Weather advisories and insights must be in Bangla.
UI/UX & Device Compatibility	7%	Clean layout, readable text, big buttons, low-end Android-friendly (4000–5000 Tk phone). Offline storage behavior earns credit.
Technical Implementation	5%	Quality of integrations (weather API, prediction logic, offline sync, file export). Efficient and structured use of technologies.
Code Quality & GitHub Submission	3%	Proper Git usage, meaningful commits, clean project structure, documented setup.
Pre-Onsite Video Demo	5%	A clear 2-minute walkthrough showing working features, navigation, and purpose. Professional and easy to follow.

7.3 Presentation Format

- Each team will have **3 minutes** to present their solution
- **3 minutes** for Q&A with judges
- Presentations should include a **live demo** of the working product

8. PRIZES & RECOGNITION

8.1 Awards

- **1st Place** – Championship Trophy + Certificates + Prize
- **2nd Place** – Runner-Up Trophy + Certificates + Prize
- **3rd Place** – Trophy + Certificates + Prize
- **2 Special Mentions** – Certificates + Recognition (for outstanding effort in specific categories like Best UI/UX, Best Additional feature)

HackFest

2025

8.2 Participation Benefits

- Certificates of Participation for all registered teams
- Networking opportunities with industry professionals and mentors
- Refreshments and kits for all participants

9. RULES OF CONDUCT

9.1 Expected Behavior

- Maintain professionalism at all times during online and onsite interactions
- Respect fellow participants, judges, organizers, and volunteers
- Follow venue rules and instructions from event staff

9.2 Prohibited Conduct

- Cheating or plagiarism in any form
- Disrespectful behavior toward judges, organizers, or other participants
- Tampering with other teams' work or equipment
- Violation of venue policies (smoking, substance use, etc.)

9.3 Consequences

- Teams engaging in misconduct will face immediate disqualification
- Serious violations may result in a ban from future university events

10. GENERAL RULES & POLICIES

10.1 What to Bring (MANDATORY)

YOU MUST BRING:

- **Laptop with pre-installed development tools and software**
- **Multiplug for power outlets** (essential for accessing power)
- **Backup internet connectivity** (mobile hotspot recommended)
- **Chargers and essential accessories** (mouse, keyboard, etc.)
- **Valid university ID card** for verification
- Positive attitude and enthusiasm!

10.2 Internet & Facilities

- Wi-Fi will be provided, but **teams should have backup plans (mobile hotspots)** in case of connectivity issues
- Power outlets will be available, but **bring multiplugs/extension cords**

10.3 Food & Breaks

- Refreshments and meals will be provided at designated times
- Teams may take breaks, but the 7-hour timer continues

HackFest

2025

10.4 Intellectual Property

- Teams retain ownership of their code and ideas
- By participating, teams grant EDUCC and East Delta University the right to showcase their projects for promotional purposes

10.5 Liability

- Please keep an eye on your personal belongings during the event
- The organizers will do their best to maintain a safe environment
- We won't be responsible for any lost or damaged items

11. DISQUALIFICATION GROUNDS

Teams will be immediately disqualified for:

- Plagiarism or use of pre-built projects
- Use of paid AI tools
- Changing team members after registration
- Misconduct or violation of conduct rules
- Providing false information during registration

12. CONTACT & SUPPORT

12.1 Organizer Support

- **Shariful Islam** | 223009012@eastdelta.edu.bd | +8801890079228
- **Arijit Roy** | 223016412@eastdelta.edu.bd | +8801835837800

12.2 Technical Support

- Technical assistance will be provided during the onsite phase
- For urgent issues, contact the volunteers or organizers during the event

13. AMENDMENTS

The organizing committee reserves the right to:

- Modify rules if necessary for fairness or safety
- Make final decisions on any disputes or ambiguities
- Update schedules or venues due to unforeseen circumstances

LET'S BUILD SOMETHING AMAZING TOGETHER!
